HISTORY – OUR LEGACY

ZAWARIQ Industries, with over 60 years of expertise in designing, manufacturing, and outfitting Fiber Glass boats, is glad to present its most recent range of boats, complete with specifications and innovative features.

ZAWARIQ Industries boats have the finest qualities and may be counted among the most convenient multi-use boats for numerous purposes such as fishing, sport activities, leisure, and any other recreational purposes when compared to other comparable boats.

Special designs, in combination with the use of class - A - Fiberglass, have led to our boats having the highest security rates in the sea, even in the most severe weather situations. Boats from ZAWARIQ Industries require less maintenance and care, and give the finest ownership experience and safety in comparison to other brands.

The Kayello family has a long history of designing, constructing, and equipping fishing and sailing wooden boats, as well as other nautical equipment, dating back to the turn of the twentieth century. The Kayello family possessed a wealth of knowledge and talents in this industry, as well as a well-deserved reputation. Kayello was one of the most well-known names (brands) among all maritime enthusiasts in Saudi, both pros and amateurs.

When the maritime industry began to look for alternative materials to replace wood in boat construction, Kayello was one of the first yards to use Fiber Glass as the major material for boat construction. Kayello decided to use Fiber Glass not just for boat manufacture because of the extensive expertise, relevant technology, and know-how it had gained, but for other uses such as manufacturing of doors, furniture, multi-use cabins, etc.

In 1958, Kayello was awarded and assigned to build the steel cruiser ship "Uhod" for the Saudi Coast Guard in Jeddah, which was the company's first commercial opportunity in Saudi Arabia. Kayello began building Fiber Glass boats shortly after, becoming the first builder in the Kingdom of Saudi Arabia and in the Middle East. At that time, most of the world had never heard of Fiber Glass.

Kayello underwent a corporate restructure and re-branding in 2021 in order to broaden our offerings and reach; "Zawariq Industries" is now one of Saudi Arabia's leading manufacturers of Fiber Glass boats and other products.

VISION

To be known and respected as one of the best boat builders in the Middle East and the Gulf Cooperation Council (GCC), as well as market leaders in the specialized boat building industry, dedicated to quality and excellence.

MISSION

To produce high-quality boats based on our original ideas so that our customers may experience reliable, enjoyable, safe, and dependable watercrafts at a reasonable price.

VALUES

- Excellence
- Innovation
- Reliability
- Passion
- Integrity
- Freedom
- Team Work
- Loyalty

ZAWARIQ PRODUCTS & SERVICES

Kayello boats have the most integrated and multi-use technological specs and features when compared to similar boats from other manufacturers. Our boats provide significantly greater enjoyment in all aspects of fishing, sailing, and other marine activities, including large yachts that are fitted with modern navigational instruments and safety equipment at the request of the owner.

Kayello Fiber Glass boats' streamlined form provides greater stability and safety on the water in all weather situations. Our boats are composed of high-quality Fiber Glass and require very little maintenance due to the material's durability and dependability.

Kayello's eagerness to create more sophisticated new designs, in addition to our valued skilled craftsmen with high technical

qualifications and hands-on experience in the marine industry, enabled our yard to provide its esteemed customers with a variety of options and choices, which reflect a bright image of a specialized professional player in the field who delivers unique models that lead to our customers' satisfaction.

Kayello boats' hulls are well supported and augmented by adequate floating materials, making drowning exceedingly unlikely in all weather conditions.

Kayello boats are the most ideal for all applications, making them the greatest investment since they have a creative design, a sturdy build, are safe, and are sold at a reasonable cost.

MILESTONES

ZAWARIQ has a long list of noteworthy achievements to its credit, dating back over 60 years:

- Late 1950s: Construction of the famed "Uhod" patrol boat for the Saudi Coast Guard Forces.
- Beginning of the 1960s, the company switched from making traditional wooden boats to Fiber Glass boats.
- Building more GRP patrol boats for the Saudi Coast Guard.
- Contract to repair and service Saudi Coast Guard vessels.
- Marina Management and Servicing in Jeddah.
- Building fishing boats for fishermen supported by the Saudi Government subsidy program to aid fishermen around the Red Sea and Arabian Gulf coasts. The project's estimated objective was to manufacture 1000 boats.
- Coordinating water sports events and contests in various Saudi cities.
- Building vessels for the Saudi Arabian Navy.
- Building an ambulance boat for Farasan Island's health services.
- We were given a three-year contract for the construction, delivery, and installation of various furnishings, fixtures, and maintenance works at King Abdul Aziz International Airport in Jeddah's Pilgrimage Terminal. Fiberglass was used for everything.
